

# Scam Red Flags Checklist

Stay safe from scammers by recognizing these warning signs. Print this checklist and keep it near your phone or computer as a quick reference guide.

## ⚠ Creates Urgency or Pressure

They say "Act now!" or "Limited time only!" to rush your decision. Legitimate organizations give you time to think.

## 💳 Asks for Gift Cards

Requests payment via gift cards, wire transfers, or cryptocurrency. Real businesses don't ask for these payment methods.

## ⚠ Makes Threats

Uses scare tactics like "Your account will be closed" or "You'll be arrested." Government agencies don't threaten over the phone.

## 🎁 Sounds Too Good to Be True

Promises huge prizes, inheritances, or investment returns with no risk. If it sounds unbelievable, it probably is.

## 🔒 Requests Personal Information

Asks for Social Security numbers, bank details, or passwords. Never share sensitive information with unsolicited callers.

## 📞 Unknown or Blocked Caller

Calls from unfamiliar numbers or shows "Unknown" on caller ID. Let it go to voicemail and verify before calling back.

## 🔗 Contains Suspicious Links

Emails or texts with strange web addresses or spelling errors. Hover over links before clicking to see the real destination.

## 💰 Demands Payment for Prizes

Says you won something but must pay fees or taxes first. Real prizes never require upfront payment.

**Remember:** When in doubt, hang up and call the organization directly using a number you find yourself. Talk to a trusted family member or friend before making any decisions.

# About CSNP

"Making cybersecurity knowledge accessible to everyone through education, community, and practical resources."

## Our Programs for Everyone

### **Business & Non-Profit Security**

Protecting organizations of all sizes from cyber threats with practical guidance and training.

### **Family Cybersecurity**

Helping families stay safe online with easy-to-follow security practices for the whole household.
